

GMRV PEMS Cart

Description

This robust steel and nylon hauler really fits the bill. When you need a 2-wheel cargo carrying platform for those PEMS equipment scenarios that are hard to equip, GMRV's PEMS Cart has your back.

The GMRV PEMS Cart is both convenient and economical. The GMRV PEMS Cart uses a secure and interchangeable hitch system. The arm and hitch are used to mount onto the lawnmower, ATV, and/or other equipment.

Features & Benefits of the GMRV PEMS Cart

- Tubular steel powder-coated frame
- Heavy-duty nylon base
- Strong axle mount arm
- 20" quick-release alloy wheels
- 120 lbs. of cargo capacity
- Speeds up to 25 mph

Now you can utilize your PEMS equipment in places that have previously proved challenging or impossible due to footprint. **Find ease. Get results.**

Width (wheel to wheel): 31-1/2"

Width (inside cargo bed): 27-1/2"

Length (inside cargo bed): 31-1/2"

Depth (rail height): 9"

Walking Mount Accessory

You don't need a rideable piece of power equipment to enjoy the benefits of GMRV's PEMS Cart. You can make your life easier with GMRV's PEMS Cart's stationary power equipment application.

GMRV offers a walking mount that allows the PEMS Cart to be towed behind the wearer of the harness. Simply don the harness, place the poles in the receivers, and you'll be well on your way.

Includes:

- Tow Bars (2)
- Waist Harness
- Safety Breakaway Cabling
- Vibration Dampener (option)
